About SGLP

Steve Gladis, PhD

SGLP inspires leaders to become even better through Executive Coaching, Leadership Development, and Motivational Speaking.

Leadership Video of the Month

Understanding the Ladder of Inference
Ed Muzio

We often make terrible decisions based on how we interpret what people do and its impact on us. Ed Muzio explains this important interpersonal concept developed by Harvard Professor, Chris Argyris.

Best Leadership Book Reviews

Check out our *Survival Leadership Blog* for executive summaries of great leadership books such as:

The Innovators:
How a Group of Hackers, Geniuses, and Geeks Created the Digital Revolution
By: Walter Isaacson

Bottom Line: *The Innovators* is a kind of biography of the digital revolution. Actually, it's a biography of biographies of all the hackers, geniuses, and geeks from Ada Lovelace to Steve Jobs and the scores of innovators in between. They collaborated with peers and stood on the shoulders of previous generations. It's also the story about fusion. The fusion of social and cultural forces; the fusion of government, private enterprise, and sharing volunteers; and, the fusion of arts and sciences to create and connect the computer with the internet—all conspiring to produce a socially collaborative digital revolution.
